**Electricity Price**

| Average Monthly Use | 500 kWh | 1000 kWh | 2000 kWh |
|---|---|---|---|
| Average Annual price/kWh, Natural Gas at $3.00/MMBtu | 11.8¢ | 10.9¢ | 10.5¢ |
| Average Annual price/kWh, Natural Gas at $6.00/MMBtu | 13.5¢ | 12.6¢ | 12.1¢ |
| Average Annual price/kWh, Natural Gas at $9.00/MMBtu | 15.1¢ | 14.2¢ | 13.7¢ |

The Average Annual prices per kWh shown above are samples based on natural gas prices of $3, $6 and $9 per MMBtu for a twelve-month period - your average price per kWh for electric service will depend on your usage and the current month's NYMEX natural gas price in accordance with the pricing formula below. The current month's NYMEX natural gas price is the last settled price of the NYMEX Natural Gas Futures Contract at contract expiration that is established by NYMEX in the final week of each month preceding the billing month. Billing month is defined as the calendar month in which a customer's meter is read by the Transmission and Distribution Utility (TDU). The pricing formula includes the following components:

| | | Per Month |
|---|---|---|
| Base Charge: | | $4.95 |
| | **Month(s)** | **Per kWh** |
| Energy Charge: | Oct-May | 3.8453¢ |
| Energy Charge: | Jun-Sep | 3.8453¢ |
| Natural Gas Factor: | | Factor |
| | Jun-Sep | 0.0098000 |
| | Oct-May | 0.0073000 |

Your average price per kWh each month is determined using the publicly available pricing components above and the formulas below based on your monthly billed kWh usage. **TDU Delivery Charges Per Month** and **TDU Delivery Charges Per kWh** will be passed through to you as billed from the Transmission and Distribution Utility ("TDU"). To determine your current month's price, input the pricing components and your usage into the formulas. For help determining your price and applicable NYMEX pricing, go to txu.com/formula or call 1-800-242-9113.

- Monthly NYMEX Gas Adjustment = Monthly NYMEX Natural Gas Price x Natural Gas Factor
- Natural Gas Factor Charge = Monthly NYMEX Gas Adjustment x monthly billed kWh usage
- Energy Charge = monthly billed kWh usage x price per kWh
- TDU Delivery Charges = TDU Delivery Charges per month + (monthly billed kWh usage x TDU Delivery Charges per kWh)

Price per kWh = (Base Charge + Energy Charge + Natural Gas Factor Charge + TDU Delivery Charges) / monthly billed kWh usage

Average prices per kWh listed above do not include facility relocation fees or other charges ordered by a municipality. For information, please go to txu.com/municipalfees.

**Other Key Terms and Questions**

Each month you will also be billed all taxes, including sales tax, and reimbursement for the state miscellaneous gross receipts tax as applicable.

See Terms of Service Agreement for a full listing of fees, deposit policy, and other terms.
